

Bibliography
on the History and Development
of the Catholic Church
in Hong Kong

2013

**RESEARCH AND DEVELOPMENT COMMITTEE
DIOCESAN BUILDING & DEVELOPMENT COMMISSION**

September, 2013

Preamble

This bibliography reflects a preliminary effort at providing a comprehensive list of the sources and documents on the history and development of the Catholic Church in Hong Kong that are available from the major university and public libraries in the city. Research work for this bibliography was carried out by an intern over a period of two months in the summer of 2013. It took place at four major libraries in Hong Kong: the University of Hong Kong Library (main library), Chinese University of Hong Kong Library (main university library), Hong Kong Baptist University Library (Shaw campus library), and Hong Kong Central Library (Causeway Bay).

The project started with a search of the libraries' online catalogues, and then several, in-depth, multiple day visits to each library. Primary focus was on the English sources available; however, any relevant Chinese sources discovered in the research were also included in the bibliography. Further work on the project could continue with extended research of applicable materials, particularly of the purely Chinese language, as well as more research into the website sources. It would be easy to extend the bibliography in the future using the computerized database system developed as part of the project.

The bibliography itself is sorted by subject category and type of source materials. The subject categories are: History and Events; Society and Politics; Social Services; Education; Religious Institutes and Missionary Societies; Buildings and Architecture; Parish and Laity; General; and Miscellaneous. The types available for each source are: Book; Journal; Newspaper; Thesis and Dissertation; Paper; Government Publication; Catholic Diocese Publication; Website; and Unpublished Material.
